Weekly Status:

We have a firmer foundation. We divided into subteams to conquer different parts of the project and had an excellent team meeting with Dr. Ganesan. The team continues reading background material, with additional papers recommended by Dr. Ganesan. Some have started prototyping code in Matlab (for high level algorithms) and CUDA (one option for GPU programming).

Weekly report is due to Prof. McNair and TA by Noon Monday. Email submission, email To: bmcnair@stevens.edu and CC: scoyle@stevens.edu . Copy should also be sent to advisor
