

EE/CpE 423-424 Weekly Status Update					
Group #:	3	Week Ending: (Saturday)	9/27/2014	Report #:	4
Project Title:	Heterogeneous Graph Library				
Report Submitted By:	Dylan Hutchison				
Advisor:	Dr. Narayan Ganesan				
Sponsor/Client:	MIT "Graph Analytics for NoSQL Databases" Team				
Total number of person-hours spent on project by group during past week:				60	
Is this project on schedule?				YES	NO
				[✓]	[]
<u>Weekly Status:</u>					
<p>Dylan and Dr. Ganesan are setting up a server for GPU testing. We're reading more about GPUs. We introduced Accumulo during our weekly meeting and investigated the idea of bringing our graph library to Accumulo iterators to speed computaion at databases. Dr. Ganesan has a computational biology use case we may take on. We're continuing to look at different papers. Some are playing with Matlab, others CUDA.</p>					
<p>Weekly report is due to Prof. McNair and TA by Noon Monday. Email submission, email To: bmcnair@stevens.edu and CC: scoyle@stevens.edu . Copy should also be sent to advisor</p>
